NovozhilovAlex

Perm, Russia

## SKILLS

- Java, Spring Boot, Spring Web, Spring Data, Hibernate, Spring Security
- PostgreSQL, Firebird, Redis
- JUnit, AssertJ, Mockito
- RabbitMQ, Docker, Maven, Git, ELK, Liquibase, Swagger

## PROJECTS

**An app for posting and mailing house news, Backend: Java, Spring (Boot, Web, Security, Data), RabbitMQ, Hibernate, PostgreSQL, Redis, Mockito, Swagger, Docker, ELK, Liquibase, Swagger. Frontend: JavaScript, React, Antd** Oct 2022 – present

- An app that allows management companies to post house news for homeowners
- The app backend consists of several microservices. The main rest service that interacts with the frontend. And services for notifying users that exchange messages through the broker
- I designed the application architecture, implemented the main service and the bot for sending notifications to Telegram. I also participated in the implementation of the frontend

**GitsBot, Java, Spring (Boot, Web, Security, Data), Hibernate, Firebird, Docker** Apr 2023 – Jun 2023

- A chat bot that allows employees to interact with the bug tracking system using the TamTam messenger interface
- This application consists of two microservices. The first microservice interacts with the messenger api. The second works with files
- I designed the application architecture and implemented both microservices

## PROFESSIONAL EXPERIENCE

**Gelicon, Java Developer** Oct 2022 – present  
Perm, Russia

## EDUCATION

**Information systems and technologies,** 2020 – present  
PERM NATIONAL RESEARCH POLYTECHNIC UNIVERSITY Perm, Russia

## LANGUAGES

**English**  
B2 (Upper Intermediate)

**Russian**  
Native
